Disclaimer:

No liability can be accepted by the State of West Virginia for any services, treatments, or counseling provided by the listed agencies or their employees, or any acts of wrongdoing by the same. The individual and/or his or her family or representative are encouraged to evaluate any agency to determine if it will meet the individual’s or family’s needs.
How Does the Employee Referral Program Work?

The Employee Referral Program (ERP) provides employees and their families with opportunities to obtain assistance for a variety of personal problems which may affect their continued functioning as productive members West Virginia State Government or society as a whole. Confidential referrals are made for treatment with independent, off-site, professionals who are experienced in a wide range of issues including:

- Workplace concerns
- Grief and loss
- Interpersonal conflicts
- Addiction and recovery
- Anxiety, depression, trauma
- Stress management
- Mental wellness
- Parenting or eldercare support
- Financial issues

The ERP services are voluntary. If you are interested in learning more about the ERP services available to you, please contact your Human Resources designee or supervisor who will provide you with assistance and guidance identifying resources found in this booklet. Your agency, along with the Division of Personnel and the Department of Health and Human Resources, encourages use of the ERP by making this resource convenient and available to employees.

What Is My Insurance Coverage?

What costs will my health benefits cover? Your benefits are dependent upon the plan you’ve joined. Managed care plans cover the same types of services as described for the Public Employees Insurance Agency (PEIA) Indemnity Plan.

Mental Health and Chemical Dependency and Substance use Benefits:

PEIA INDEMNITY PLAN

Outpatient Services

Outpatient mental health, chemical dependency and substance use services are limited to a maximum of 20 visits per patient per plan year for short-term individual and/or group outpatient mental health and chemical dependency services. This benefit includes evaluation and referral, diagnostic, therapeutic, and crisis intervention services performed on an outpatient basis (includes a physician’s office).
Inpatient or Partial Hospitalization Services
Inpatient programs and outpatient partial hospitalization day programs for mental health, chemical dependency and substance use services are limited to a maximum of 30 days per patient, per plan year. For outpatient, partial-day programs, two (2) outpatient days will be counted as one (1) inpatient day when applying the 30-day maximum.

This information is subject to change so be sure to read your current benefit booklet or call your plan for instructions before getting services.

Managed Care Plans
Each managed care plan has its own referral procedures for using mental health and chemical dependency benefits. Co-payments also vary from plan to plan. Be sure to read your benefit booklet or call your plan for instructions before getting services.

Community Behavioral Health Centers
Types of Services Available through Community Behavioral Health Centers

Adult Residential Programs serve males and females over the age of 18. These programs provide individual and group counseling, support groups, and other services within an intensive 24-hour therapeutic environment. Contact the individual programs for information concerning admission procedures and payment requirements.

Adult Transitional Living Services provide a supportive living environment for adults who are in the process of recovery from addiction and who have generally completed a more intensive treatment program (usually residential).

Specialized Services for Women include a variety of programming directed to the specific needs of women who abuse alcohol or other drugs. These services include outreach services, outpatient treatment services, extended residential treatment/transitional living services, and residential treatment services which make it possible for women to continue residing with their children while receiving treatment.

Adolescent Treatment Services include outpatient, intensive outpatient, and residential treatment services tailored to the specific treatment needs of adolescent substance users.

**FMRS – The MOTHER Program**

The MOTHER Program arranges intensive outpatient or residential services for women ages 18 and older who are experiencing losses (such as their job, custody of their children, finances, friends, home) due to their use of alcohol or other drugs. The individual may have tried to quit on her own or may have tried outpatient services with little success.

The MOTHER Program is a six-month program divided into three phases - Early Recovery, Advanced Recovery and Extended Recovery. Treatment services include psychiatric services and medication management and counseling for co-occurring disorders, group counseling and case management. Initially women participate five days a week, then three days a week, and finally one evening a week. Women who participate in the Residential Program reside in housing provided through a cooperative agreement with Pinehaven Homeless and Rehabilitative Services.

Detoxification services are provided for or arranged as needed. Priority is given first to pregnant women, women who are using IV drugs, and women with children. Childcare is arranged, and parenting groups are provided for women with children.

**FMRS – The LEARN Program (Men’s Addiction Treatment Services)**

The LEARN Program designs intensive outpatient services for men, ages 18 and older who are experiencing losses (such as their job, family, friends, health or finances) due to their use of alcohol or other drugs of abuse. The individual may have tried to cut back or quit on his own or may have tried outpatient services with little success. Treatment services are held Monday through Friday for five weeks and include psychiatric services (as needed), medication management and counseling for co-occurring disorders, group counseling and case management. Individuals who utilize intensive outpatient services need to have a strong support system in place to assist them in reaching their treatment goals.

The LEARN Program also recommends residential services for men who are addicted to alcohol or other drugs of abuse who have a weak support system in place, and who have demonstrated the need for a structured therapeutic environment along with intensive treatment services. Treatment services, which mirror the services available in the Intensive Outpatient Program, are provided Monday through Friday for five weeks, and residential services are provided through a cooperative agreement with Pinehaven Homeless and Rehabilitative Services. Detoxification services are arranged for or provided as needed.

**John D. Good Recovery Center**

John D. Good Recovery Center is a residential substance use treatment facility located in Terra Alta, West Virginia, comprised of a Detoxification Unit and a Recovery Community Program.

The Detoxification Unit is a residential 10-day detoxification program for individuals with a chemical dependency. There are 20 available beds – 10 voluntary and 10 court-ordered or involuntary. Medically monitored detoxification services are provided through a 24-hour available nursing staff and daily appointments with a physician. Treatment services are primarily supportive, and group based. Individuals will participate in group therapy, individual therapy, and a 12-step recovery program. The

Recovery Community is an 18-bed, long-term residential program following a community-based peer-driven philosophy. Essentially, the residents of this 15-18-week program adopt a therapeutic community concept where they rely mostly on themselves and their peers during their recovery. This method teaches self-reliance and positive social skills by reducing dependency on staff. The Recovery Community promotes personal growth and upward mobility through a three-stage process with increasing privileges accompanied by increasing responsibility and expectations.

Mid-Ohio Valley Fellowship Home, Inc. (Long-Term Residential)  
Men’s, Women’s, and Women with Children’s Programs

The Mid-Ohio Valley Fellowship Home, Inc., is a transitional living program for men, women, and women with children. Their mission is to offer a community where the residents are encouraged to develop good health and work habits and to live cooperatively with one another. The disease of addiction alienates the substance user from his/her family, neighborhood and employment. The Mid-Ohio Valley Fellowship Home eases the re-entry of the recovering person into everyday life.

The following four homes are within the Mid-Ohio Valley Fellowship: 1) a home that serves fourteen male residents, 2) a home that serves six women, 3) a home that serves six women with children, and 4) a three-quarter house that serves four men. The average length of stay for a resident is 6 months. Referrals are accepted from any agency or organization serving chemically dependent people. Self-referrals are accepted provided no intoxication has occurred in the previous 72 hours. Any man or woman expressing a sincere desire to stay sober may be eligible for placement.

**Prestera’s Addictions Residential Services**

Residential services provide 24-hour supervised care for adults that cannot live independently in the community and who would likely have to be hospitalized in a psychiatric hospital without support in their homes.

Homeless services can provide referrals for medical issues, help teach people job seeking skills, provide transportation to appointments and help those struggling with homelessness find safe, affordable, permanent housing. Beyond providing supportive services, Prestera Center staff are advocates for chronically homeless. Trained professionals help guide homeless adults through the bureaucracy of other agencies that can seem overwhelming.

Adolescent Treatment Services

The ADAPT Program

The ADAPT Program (available in Raleigh County) provides specialized services for twelve or more weeks. Adolescents attend the program four days a week, gradually stepping down the number of days a week until program completion. The program lasts three hours a day and is held during hours that do not interfere with school attendance.

Program services include intensive and supportive groups designed to assist the adolescents in making changes that will enhance their willingness and ability to develop and maintain a drug free lifestyle. Co-occurring disorders are also addressed not only in individual or group counseling, but also by a board-certified child psychiatrist as needed. The program allows for family involvement in the treatment process. Transportation services are provided within a one-hour radius of the program site.
