***By signing this form, you acknowledge that participating in the DOP-OHRD E-Learning Warrior Beta test program may require up to 8 hours of work time to review and provide feedback for an assigned project. For most projects the time will be considerably less, but does vary based on the planned final length of the project as well as individual reviewer speed.*

Information

E-Learning Warriors help us by reviewing online content and suggesting improvements before the content is released to the general public.

To volunteer, you must complete this application, which includes approval from your supervisor.

Upon acceptance into the program you will complete a one-hour online training program detailing how to review an online course. Upon completion of this training program, you will officially join the ranks of OHRD's elite team of E-Learning Warriors, ready to review online content on an occasional basis.

Volunteers may complete as many beta tests as they choose, depending on their work schedule and supervisors' approval. Participation in this program is a great way to learn new editing/evaluation skills and have a voice in how training materials are presented.
